To Whom It May Concern

**Re: AJN Refurbishment Limited.**

AJN Refurbishment Limited has carried out a large number of small works through to large refurbishment projects for Morris and Spottiswood; I would like to commend the company on its high levels of service received.

This is apparent in the high quality of work, strong management and competitive pricing that they provide. That, alongside the minimal impact caused and excellent relations when working within operational buildings gives me great confidence when employing their services which is of high importance for a successful scheme.

I would have no hesitation in recommending the company to any prospective client

Yours sincerely

Chris Hamlett
